MEMORANDUM FOR: Deputy Director for Support

Jack:

At the Ideas and Authors session at the Civil Service Commission last Friday, I had a chat with Charlie Conrad, the Executive Director of the National Capital Planning Commission. He told me that he, and presumably the Commission, is solidly and strongly in support of reserving for CIA use the Bureau of Public Roads property adjacent to our Headquarters Building. They are very much opposed to allowing any other agency to come into this area and use this land. Conrad said that the plan which they are making projects itself for another ten or fifteen years. He suggested, however, that we come up before too long with some usage plan.

I don't know what we can do about this at the moment, except to continue to play the game we have been playing for several years. At least it is comforting to hear that NCPC is on our side for a change. In light of all this, I should assume that we would have no difficulty at all with the garage, if and when the time is appropriate to present it for their consideration.

[REDACTED]  
L. K. White

25X1A

NOTE: I discussed the memo with [REDACTED] EO/DDS. He stated that the DDS staff was well aware of the usage plan sent forward by this staff at an earlier date. They also are aware of the existence of a color photo copy of the actual plan with written explanations and descriptive information, a copy of which is on file in the DDS Registry.

At the request of [REDACTED], I explained the budget timing schedule for the garage as put forth in the OL Budgetary Program noting that the contract for A&E work had been signed last Fri., 23 April 71. (I was informed by [REDACTED] on 30 April that Mr. Coffey is of the opinion that OL should move up from FY74 to FY73 the request for construction money on the garage.)
